

## Elementary School Technology Contract

1. Technology at school is for educational purposes.
  - Social media sites are not permitted during school hours unless instructed by your teacher for educational purposes.
  - Games and websites must be approved by a teacher. Games and websites will not be permitted that are violent or contain adult content.
  
2. I will follow all the rules for the appropriate use of technology in all areas of the school including the classroom, computer lab and library learning commons as per school and district code of conduct.
  - Hardware and software are the property of the school district. I will not tamper with, alter or adjust the technology without permission.
  
3. I will keep my identity and the identity of others students private.
  - I will not share my name, the names of other students or my family's name online.
  - I will not share my address or the name of my school online. I will not post pictures of myself or others online.
  - I will not take and share photos of anyone without their permission.
  - I will not share my passwords with anyone, other than my parents/guardians.

I, \_\_\_\_\_, am responsible for my actions while using technology at (school name)
