

# Networks of Inquiry and Indigenous Education

A guide to applying for and supporting your inquiry

## Networks of Inquiry and Indigenous Education (NOIIE)

NOIIE is network of inquiry-based schools across British Columbia.

Using an inquiry-oriented, evidence based approach to learning and teaching through the Spiral of Inquiry, teams work towards improving outcomes for all learners in their settings and submit case studies to share their progress.

Each school that submits a proposal using the Spiral of Inquiry framework by **December 18th, 2023** will be given a \$500 grant by NOIIE.

***Please note:*** NOIIE will provide one grant per school.
