

Transition Planning April – June 2022

Transition Planning

This tool is intended to guide the Transition Planning workshop. However, it can also be used as a framework to support future transitions into your school.

Guiding Questions

Positive profile: what are the student's strengths and interests? How can we use this information to guide the transition supports created for the student?

Primary presenting concerns: what are the primary presenting concerns? How can we use this information to guide the transition support created for the student?

Essential supports: what are the essential supports that this student will require for their transition to school and to engage in classroom & school activities?

School Based Team support: what are the ways that the different members of the School Based Team can support the creation and implementation of essential supports for this student's transition?

Training: what additional training will staff require in supporting the transition of this student? Who is responsible for coordinating this training? Who is responsible for providing this training?
